

FARMERS WELFARE PROGRAMME

Date: 18.11.2023

A farmers Welfare Programme was organised by EcoClub on 18.11. at 2:00pm-4:00pm in our Campus. The farmers of this locality were addressed by Senior Consultant, Scientist, S4 Farming and Founder of LANDRACE, Dr. Subhasisa Bal. The main objective of the program was to create awareness among the farmers about the S4 farming practices. It is an efficient practice to increase the rice production with biodiversity conservation. It not only reduces the cost of cultivation but also increases yield of crop and farmers income.

5G Farming requires less water, less seeds, reduces the cost of cultivation, save time, requires less ^{or no} fertilizers (synthetic), no pesticides, weedicides etc. It gives 30% higher yield in comparison to other methods of cultivation with multiple income. It is nature friendly and save the motherland.

Farmers welfare programme organised by Date- 18.11.2023
ECO CLUB

A farmers welfare programme has been held

on 18.11.2023 at 2 PM at IT Conference hall. Topic for the programme is "5G Farming Practices multiply farmers income" & the speaker is Dr. Subhasisa Bal.
